Lights! Camera! Action! The 2011 Golden Globes was a night to remember. The glitzy and glamorous evening had a surprise twist with not only sparkles galore, but a return of the diamond stud earring. Reminiscent of a *classic chic* era and a "wear them anywhere" style, diamond studs are definitely the new "it" accessory for any night out on the town! Here at Fantasy Diamond, diamond studs are our specialty and would make any woman's evening a night to remember.
